

What is the most costly NHS medicine?

“An unused medicine”

Unused medicines...

...cost NHS Surrey **over £8 Million** every year.

...cannot be reused or recycled.

...have to be destroyed by incineration, adding to their carbon footprint.

How can you help reduce **unused** medicines waste in the NHS?

Think before you tick—only order what you need.

Spread the word – unused medicines waste money.

Inform your GP or pharmacist if you are no longer taking any of your medicines.
