

# Your Spelthorne Borough Councillors

Borough councillors are elected by the community to make decisions on behalf of residents about local services including rubbish and recycling, environmental health, services for older people, planning, housing, leisure facilities and parks. They represent their ward areas for four years. Councillors are not paid a salary for their work, but they do receive an allowance. If you have a problem in your area or wish to comment on an aspect of the Council's service, you can contact one of your local councillors.
