How do projects win funding?

1. After the application deadline, Groundwork UK uses a scoring system **to shortlist 10 projects** in each Tesco region to go through to a Tesco panel.
2. The **Tesco Panel** is usually made up of up to five Tesco staff members, who choose 3 projects out of the shortlisted ones using a scoring and voting system.
3. The three successful projects will then be **voted on by customers in each Tesco store** for a week to determine which one will win £8.000, £10.000 or £12.000.
