

# ENGINES OFF!

An illustration of a woman with white hair, wearing a red jacket over a yellow top and purple trousers, walking a brown dog on a leash. They are on a sidewalk next to a green car. A large, dark, swirling cloud of exhaust smoke is coming from the car's tailpipe, partially obscuring the woman and the text. In the background, there is a playground with orange and yellow equipment and green trees under a blue sky.

Idling your  
engine can  
cause asthma  
and lung  
disease

## NO IDLING in Spelthorne

Please turn your engines off while stationary  
on a public road.
