River Colne and Frays River at West Drayton and Stanwell Moor

River Thames at Chertsey

River Thames at Hamm Court

River Thames at Laleham

River Thames at Shepperton and Lower Halliford

River Thames at Shepperton Green

River Thames at Staines and Egham

River Thames at Sunbury

River Thames at Walton
- Main Rivers
- Ordinary Watercourses

Notes

The Environment Agency provide a free flood warning service for many areas at risk of flooding from rivers and sea. In some parts of England the Environment Agency may be able to provide warnings when flooding from groundwater is possible. The Environment Agency free flood warning service can provide advance notice of flooding and can provide time to prepare.

The Environment Agency issue flood warnings to home and businesses when flooding is expected. Upon receipt of a flood warning, occupants should take immediate action.

The Environment Agency issue flood alerts when flooding is possible. Flood alerts cover larger areas than flood warnings and are issued more frequently. Upon receipt of a flood warning, occupants should be prepared for flooding and to take action.

If a flood alert for groundwater is available this does not mean that your property is definitely at risk. It is very difficult to predict the exact location of flooding from groundwater as it is often related to local geology. To help people, the Environment Agency provide flood alerts for large areas that could be affected if groundwater levels are high.
