## 1. Introduction

- 1.1 This document sets out data from the 2011 Census for Spelthorne, adjoining boroughs and the rest of Surrey. Where appropriate comparison is also made with data from the 2001 Census.
- 1.2 It incorporates information on the census published by the Council in July 2012 in 'Fact Sheet No 1' which provided initial population totals.
- 1.3 This current document will be updated as new data is published.

## 2. Background

- 2.1 On 27 March 2011 the Government undertook a census of the United Kingdom. The first results were published by the Office for National Statistics (ONS) on 16 July 2012. Detailed information at local authority level was published at the end of November 2012. Ward level data is expected to be published at the end of January 2013 and further releases are expected throughout the rest of 2013.
- 2.2 Further information about the 2011 Census and data tables can be found at [www.ons.gov.uk](http://www.ons.gov.uk)

## 3. Population

### Total Population and Age Profiles

- 3.1 Overall there has been a 7.7% growth in the population of England and Wales from 2001 to 2011. Spelthorne's population growth of 5.8% is below this average. In the adjoining authorities population change varies from 3.2% in Runnymede to 17.7% in Slough.
- 3.2 Table 1 shows Spelthorne's population in the national and regional context. Table 2 compares Spelthorne's population change with adjoining authorities and the rest of the Surrey.

**Table 11 Ethnic Groups**

3.11 Table 11 shows the ethnic groups to which the population in Spelthorne and surrounding areas belong. This shows 81% of Spelthorne's population as 'White British', which is higher than any of the other adjoining authorities. In Spelthorne 4.2% of the population is Indian, which is the highest percentage in Surrey but lower than most other adjoining authorities. Of the 1.6% recorded as 'Black' 1.0% is 'Black African'.

**Table 13 Country of Birth**

3.13 This table examines the country of birth for residents in Spelthorne, surrounding authorities and the rest of Surrey. Published figures are much more limited with all non-EU countries placed in a single group. For the purposes of this report the UK figure has not been broken down but the source data does provide that detail. Overall the absolute number of Scottish, Welsh and Northern Irish are small with limited variations in totals between authorities.

## 5. Health

- 5.1 The following three tables provide information about people's health, limitations due to health and unpaid care provided. Overall Spelthorne's residents appear slightly less healthy and provide more unpaid care than most adjoining authorities and other Surrey districts.

**Table 18 General Health**

- 5.2 Table 18 provides responses to a general health question. In the Surrey context Spelthorne had the fewest residents stating they had 'very good health', with the highest proportion saying they had 'good health', 'fair health', 'bad health' and 'very bad health'. The responses are not greatly dissimilar to Hillingdon and Hounslow.

**Table 24 House size, household size and central heating**

- 6.4 In Spelthorne the average number of rooms per household, whilst the lowest in Surrey, is generally higher than the surrounding authorities outside Surrey. The average household size for Spelthorne of 2.4 persons is the same as the Surrey, South East and England average. The number of those without central heating, at 2%, is higher than the Surrey average but is generally better than other adjoining authorities. There has been a significant improvement in central heating provision since 2001.

## 8. Education

- 8.1 This table shows the proportion of people with different levels of qualification. These are compared with the 2001 Census figures - except for Apprenticeships where data is not available. A full definition of the categories is set out on the following page. Overall Spelthorne has lower levels of educational attainment than most adjoining authorities, Surrey and the South East as a whole

## 9. Employment

### Economic Activity

- 9.1 Table 29 sets out the proportion of people in the 16-74 age range who work full time, part-time, are self-employed, unemployed or students who regard themselves as 'economically active', i.e. they want to work. The percentages do not add up to 100% as further categories of all those aged 16-74 are considered in the next two tables. These figures show Spelthorne having the highest percentage in full-time employment, high part-time employment but a relatively low percentage for those who are self-employed.
